Usage Instructions of Tea Caddy

All tea caddy of *Pewter Art*® are manufactured with excellent craftsmanship. The tea caddy is fully insulated and is suitable for storage of premium tea leaves or herbs without affecting its freshness and taste. Its elegantly crafted surface makes them an ideal ornamental piece or a stunning collection.

In order to ensure the durability of the tea caddy and outer esthetic, we recommend that care should be taken when maneuvering. It is important that when removing/closing the cover, slow and gentle vertical upward/downward motions are applied without twisting the cover.

如何使用茶叶罐:

由 *Pewter Art*® 公司手工制造出的具有真空功能的茶叶罐是具观赏和储存上等茶叶、名贵药材的顶级精品。

为使它保持长久的美观和真空密封功能,我们建议您在打开内外盖时,将盖慢慢垂直向上拉,在关内外盖时,同样将盖慢慢垂直向下放即可,千万不要用力扭转内外盖,这样会有损茶叶罐的真空功能。

D'Passage Collection

Another stunning collection from *Pewter Art*® is combining pewter and natural wood into masterpieces that will last for a lifetime. The characteristics of both pewter and natural wood make our collections contrast stunningly and unique.

All items in D'Passage Collection employed patented innovation (Patent no.: MY-125598-A). Unlike the conventional methods of using glue, nails or rivets, our patented method uses absolutely only pewter to hold wood pieces together or to decorate wood pieces firmly, permanently and aesthetically.

Some models are even strictly limited edition worldwide and come with a serial number, certificate and free lifetime maintenance guarantee where they can be returned to us for hand polishing to maintain its luster for a lifetime.

D'Passage Collection

Pewter Art® 另一种高级时尚产品，运用了天然上等木及锡（白）镞来制成；可以持久珍藏。它是以独特的专利技术制成（发明专利权号：MY-125598-A），别具一格。在完全不使用任何黏剂或钉子，螺钉，铆钉之类的扣件之下，我们的专利技术利用锡（白）镞来连接相邻坚硬木材平板，把两者紧密贴合在一。

当中一些系列是全球限量发行，并附有列号，证书及免费永久保养服务，保持色泽璀璨典雅。

THE PROCESSES:

Pewter Art's exquisite pewterware are diligently crafted through a series of processes to meet the exclusive tastes of pewter lovers.

1. Casting

First, molten pewter is skilfully poured into a pre-heated mould to ensure the smooth flow of metal for a perfect cast. It is then cooled and dismantled so that the mould can be carefully removed to reveal an ideal cast.

3. Soldering

Next, various parts of the item are soldered together. Timing and temperature control are critical factors in this process to create a perfect joint for the item. At *Pewter Art*, skilfully made joints by experienced craftsmen are remarkably strong and virtually invisible.

2. Polishing

The partly-completed pewter is now accordingly polished with several polishing techniques to achieve the desired brilliant finishing. High-speed precision buffing is thus essential to attain the best results.

4. Quality Control

No completed pewter leaves *Pewter Art*'s factory without having been inspected for any possible quality defects. As craftsmen of the ideal pewter, we place utmost importance that every item is checked for precision in weight, quality of finish and consistency in specifications.
